

HELPPBNK STEP 19 - IMPLEMENT PAYWALL, PLANS, AND IN-APP PRICING TEST

Date: February 21, 2026

OBJECTIVE

Validate willingness-to-pay with live in-app pricing paths.

PLAN SETUP

1. Free: limited scans, core estimate output
2. Pro (GBP 7): higher limits + advanced insights
3. Pro+ (GBP 12): highest limits + premium tools

WHAT TO DO

1. Add paywall screen with clear value comparison.
2. Add upgrade prompts at natural intent moments.
3. Track paywall views, plan clicks, and upgrade attempts.
4. Capture objection reason when users do not upgrade.

SUCCESS SIGNALS

1. Measurable Free->Paid intent
2. Clear plan preference trend
3. Documented objections to refine offer copy

OUTPUT

1. Pricing test summary
2. Recommendation: keep, adjust, or simplify plans
