

HELPPBNK STEP 3 - PACKAGE AND PRICING PLAN (FREE, PRO, PRO+)

Date: February 21, 2026

OBJECTIVE

Set a simple, testable package structure that supports adoption and validates willingness-to-pay quickly.

PLANNED PACKAGES

FREE

1. Limited scans per month
2. Basic valuation output
3. Standard confidence indicator

PRO (GBP 7/MONTH)

1. Higher scan allowance
2. Advanced report details and better history context
3. Saved scan history and faster decision workflow

PRO+ (GBP 12/MONTH)

1. Highest scan allowance
2. Deeper analytics/profit view
3. Priority features for power users (exports/advanced tools)

PRICING HYPOTHESIS

1. Free drives top-of-funnel onboarding
2. Pro is the main conversion tier
3. Pro+ captures high-frequency power users

MONTH-1 VALIDATION TARGETS

1. 8-12% of active users show paid conversion intent
2. Clear preference split between Pro and Pro+
3. Objections captured for pricing/feature mismatch

EXPERIMENT PLAN

1. Launch landing page with clear plan cards
2. Track clicks on Free/Pro/Pro+
3. Track signups and pilot activation by selected plan
4. Interview users on willingness-to-pay and must-have features

DECISION RULES

1. Strong Pro pull -> keep GBP 7 anchor
2. High Pro+ interest -> expand Pro+ feature depth
3. Weak paid pull -> adjust packaging before wider launch

COMPLETION CRITERIA

1. Pricing tiers are understandable to users
2. Early willingness-to-pay signal is measurable
3. Go-forward pricing recommendation documented
