

HELPPBNK STEP 3 - SMOKE-TEST LANDING PAGE (FREE, PRO GBP 7, PRO+ GBP 12)

Date: February 20, 2026

OBJECTIVE

Validate demand and price sensitivity before scaling product build.

HYPOTHESIS

1. High-frequency sellers will engage with a clear value proposition around faster comps and profit clarity.
2. At least 8-12% of active users will show paid intent at GBP 7 or GBP 12 plans.

LANDING PAGE STRUCTURE

1. Hero: "Scan anything. Price faster. Buy smarter."
2. Core outcomes: instant valuation, confidence score, risk indicators, profit view
3. Plan cards: Free, Pro GBP 7, Pro+ GBP 12
4. Email capture + CTA buttons for each plan
5. FAQ + trust section

TRACKING SETUP

Track:

1. Page visits
2. Email signups
3. Clicks by plan (Free / GBP 7 / GBP 12)
4. Conversion rate from visitor to signup
5. Objections from replies/messages

DISTRIBUTION PLAN

1. Share to high-frequency seller communities
2. Direct outreach to target users (DM/email)
3. Post short video/demo snippet linked to page

SUCCESS CRITERIA (14 DAYS)

1. 100+ targeted visits
2. 20+ email signups
3. Clear signal of plan preference (GBP 7 vs GBP 12)
4. Top 3 objections documented with exact user wording

DECISION RULE

1. Strong GBP 7 pull + acceptable intent at GBP 12 -> continue pricing test and onboarding
2. Weak paid pull -> revise positioning/paywall and rerun test

OUTPUT / COMPLETION CRITERIA

1. One-page summary: traffic, signup %, plan click split
2. Top objections and pricing feedback
3. Recommendation: keep, adjust, or pivot pricing
