

HELPPBNK STEP 5 - FIRST-SEGMENT GO-TO-MARKET AND PILOT PLAN

Date: February 21, 2026

OBJECTIVE

Run a focused pilot with the first segment, prove usage/value, and produce investor-grade validation evidence.

FIRST SEGMENT

1. High-frequency eBay sellers (small teams/individuals)
2. Users who make weekly sourcing and pricing decisions

PILOT SCOPE

1. Cohort size: 20 users
2. Duration: 14-30 days
3. Product surface: scan -> valuation -> confidence -> action decision

ACQUISITION PLAN

1. Direct outreach in relevant seller communities
2. Founder-led DMs to targeted users
3. Early-access landing page with clear plan options

PILOT METRICS

1. Activation: users completing first scan
2. Weekly active pilot users
3. Scan success/timeout rates
4. Pricing-plan interest (Free/Pro/Pro+)
5. Willingness-to-pay and top objections

FEEDBACK LOOP

For each pilot user capture:

1. Primary pain point
2. Most valuable feature
3. What is missing to pay monthly
4. Recommended product/pricing improvements

90-DAY MILESTONES SUPPORTED

1. Pilot launched and active
2. Reliability targets tracked and improved
3. Early paid conversion signal established
4. Investor update prepared with measured evidence

COMPLETION CRITERIA

1. Pilot report completed with quantified outcomes
2. Go/refine/pivot decision made from evidence
3. Next sprint priorities locked for growth phase
